

## CAMP HEARTLAND.

April 21, 2000

Dear Detroit Friend,

**Eight children impacted by HIV/AIDS from the Detroit area** are planning to attend a special four-day "Spring Jam" session at CAMP HEARTLAND. ***But we need your help!***

CAMP HEARTLAND is dedicated to making the experience of support, love and hope found at summer camp last *all year long*. That is why we've developed our Life Enhancement Program. Through phone calls, newsletters and special programs throughout the year, we work hard to help campers maintain and build upon the relationships and skills gained at summer camp.

Of course, the best (and most fun) way to help campers maintain their connection to the unique camp community is to bring them back to camp! And that's what we're planning to do for 8 children in your area this month.

Mini-sessions are a great chance for campers to rekindle old friendships and start new ones... It's a quick escape from the day-to-day stress of the "real world"... a chance to renew their spirit, to feel first-hand the special support and unconditional love they get at camp, and to have the time of their life. Packed with lots of fun seasonal activities like sledding, ice fishing and broomball, **mini-session campers get the important combination of fun and support that helps make life better throughout the year.**

Of course, that special combination has a price. And since CAMP HEARTLAND is committed to providing our programs free of charge to the families we serve, we are asking you to *help us give this special mid-year camp opportunity to one of the children impacted by HIV/AIDS in your own community.*

From airfare and medical care, to food and winter gear, it costs CAMP HEARTLAND nearly \$1000 to bring a camper to camp for a mid-year mini-session. Whether you are able to contribute \$1000 to cover all costs for one child, \$300 for a child's airfare, \$100 for medical care or \$20 to cover the cost of two days of food, **every dollar counts!**

Please send your contribution in the enclosed envelope and know that *your support is making an important difference* in the life of a child impacted by HIV/AIDS in your community.

Thank you and best wishes for a happy and healthy Spring,

Jennifer Robbins  
Director of Program Services
